**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Vaughan ('415). Vaughan teaches a clip (Figure 5) comprising a weatherstrip side member 22 that has an arm with a base portion and an engagement piece extending from the base portion of the arm (Figure 5), there is a window frame side member (lowermost element in Figure 5) that includes a holding portion and an attachment means, and there is an engagement means situated between the engagement piece of the weatherstrip side member and the holding portion of the window frame side member. The engagement means includes a plurality of claw members formed at multiple positions spaced laterally on the engagement piece and a hole 40 formed on the holding portion. The attachment means of the window frame side member includes an attachment portion, and the window frame side member includes a groove on at least one of the front side surface and backside surface.

***Allowable Subject Matter***

Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
